

THE OPPORTUNITY:

AlarmShield Incorporated is expanding and we are in need of Software Programmer for configuring Home/Office Automation Systems.

RESPONSIBILITIES:

- Configure automation controllers for residential/commercial applications
- Maintain and report accurate records of hours
- Communicate with the customer and program scenes based on their requirements
- Testing of configured Automation Controllers (scenes) on site

REQUIREMENTS:

- Strong programming skills, preferably with C, Objective-C, and/or C++
- Significant experience with graphics development
- strong analytical and problem-solving skills
- User-interface programming experience
- Mac OS X and/or iPhone OS programming experience
- Team player that is flexible and highly organized
- Must be a self-starter and willing to work with minimum supervision
- Must maintain a clean driving record and maintain a valid Ontario motor vehicle operator's license
- Must have a vehicle to travel to job site
- Energetic, enthusiastic and articulate

COMPENSATION:

Part time: Pay will be based upon experience.

Our investment in you is to provide the guidance and structured learning environment. We are a focused group of individuals committed to creating a great workplace. Our work environment will challenge you to grow professionally and personally while having a lot of fun with great people. If you thrive in small, focused teams and high-energy environments, are passionate about what you do, and are interested in having real impact in a growing, innovative industry, we want the chance to work with you.

TO APPLY:

Please state position applied for as "Software Programmer" and send resume by Email or Fax to ALARMSHIELD Inc.:

Email: HR@alarmshield.ca

Toll Free: 888-725-2760

Toronto: 647-797-4260

Kitchener/Waterloo: 226-808-2331

Fax: 1-888-725-2760

We appreciate all expressions of interest, however, as a practical matter, only select candidates whose backgrounds best match requirements will be contacted.

All candidates will be required to complete security clearance and background checks.

All resumes are retained and treated confidentially for consideration against future opportunities.
